PROTOTYPE SPECIFIC INFORMATION

The modern 100 ton, high-cube, 60' boxcar has become ubiquitous in the modern rail scene. These cars are designed to carry a myriad of loads, from auto parts to forest products. These boxcars are a fixture to any modern freight train.

The Athearn model depicts accurately a ICC built 60' boxcar. Many paint schemes from the similar cars are also offered as close "stand-in" type models.
